

# CALL FOR PAPERS

## All About Algae and Associated Advances

Winter 2024, Issue 58.1

This special issue will cover innovative marine and other technologies that spawned from or inspired by algae. Manuscripts in this issue will focus on the broad topics of algae and its many uses in our world today. Some of the subject areas to be considered include:

- Carbon negative dyes from algae
- Bio-based biodegradable recyclable fabrics
- Seaweed-based compostable replacements for plastic packaging
- New seaweed farming innovations
- Algae for energy
- Methods to prevent harmful algae blooms
- Algae as a raw material for many markets

The *MTS Journal* is the flagship publication of the Marine Technology Society. It publishes the highest caliber, peer-reviewed papers on subjects of interest to the society: marine technology, ocean science, marine policy, and education.
